WWW.PULLMANFURNITUREMFG.COM

At Pullman, we begin with your idea then we custom craft a piece of furniture that is both functional and beautiful. Your clients will enjoy their home theater all the more when they sink into the luxury of premium leather or lustrous Pinnacle Suede while being supported by our high-density foam and kiln-dried hardwood frames. Choose from three grades of leather in 55 colors or 18 exquisite shades of suede. Along with getting superior, customized home theater seating—in only 6 to 8 weeks—you'll receive the level of personalized customer service that comes from 25 years of treating each client like our only client.

We will also use client-provided materials to fully coordinate home theater seating with existing décor in the home, and we also create residential seating. All of our recliners are available motorized or manual, and all chairs can stop in infinite reclining positions. And, there's no need to worry about quality when you have the reassurance of extensive warranties behind all our pieces.

Pullman is a premiere home theater seating manufacturer who designs, builds and distributes hand-crafted custom seating. Isn't it time you experienced the difference? Call 800.457.3480 or e-mail kfoster@pullmanfurnituremfg.com for more information about our custom quality from frame to finish or to request a catalog.
